Risk Assessment: Covid-19 – face-to-face counselling in line with current government and professional guidelines

Site Address: Thame Talking Therapies, The Sanderum Centre, 30A Upper High Street, Thame, OX9 3EX

Next Review Date: After significant change which requires necessary adjustments

In line with our responsibility to protect practitioners and clients, Thame Talking Therapies has created and reviewed the below risk assessment to identify the known risks relating to Covid-19, consider controls and mitigation based on current available UK government guidance. We will monitor government guidelines continually as the situation evolves and implement changes to existing controls wherever necessary. This risk assessment will be formally reviewed when any such changes occur.

This risk assessment has been constructed to protect our clients and practitioners entering our therapy room at The Sanderum Centre as far as is reasonably practical.

This risk assessment has been written adhering to current government guidelines.

“Practitioners” are Jo Caiger, Catherine Ghouse and Devi Maybanks

“Clients” are those engaged in therapeutic services with Thame Talking Therapies practitioners

Hazard	Who is at risk?	Control measures	Further controls
Spread of Covid-19	Practitioners Clients	<p>Protection of Vulnerable People Individuals who are <i>extremely</i> clinically vulnerable, practitioner or client, are strongly advised not to attend face-to-face counselling sessions. In addition, those at a higher risk should take extra care in observing social distancing.</p> <p>Self-isolation for symptomatic individuals If anyone, practitioner, or client, becomes unwell with a new continuous cough, high temperature, loss of smell and taste, or any other Covid-19 symptoms. they <i>should not</i> attend face-to-face counselling sessions and should stay at home.</p> <p>If anybody has developed Covid-19 and has attended face-to-face counselling at Thame Talking Therapies (TTT) within the 48 hours prior to either symptoms developing or a positive test, they should contact their practitioner. Practitioners will contact their clients should they develop symptoms or receive a positive test within 48 hours of seeing clients.</p> <p>If clients or practitioners are self-isolating, remote sessions may be offered by arrangement.</p>	Clients who are <i>extremely</i> clinically vulnerable should inform their individual practitioners and suitable and sufficient appropriate arrangements should be made for remote therapy via video or telephone.
